

The **ISOTREND company from the Czech Republic** is a specialist in Ir-192 sources manufacturing, worldwide supply and disposal.

- more than 20 years of manufacturing experience
- supply for more than 30 countries all over the world
- more than 100 satisfied customers
- sources suitable for all gamma ray projectors
- ISO 9001:2008 and State Authority for Nuclear Safety certified

## **ISOTREND quality services are a profit for your company**

Iridium-192 sources are the most commonly used radioisotopes for radiography method in the non-destructive testing. Exceptional exposure quality and versatility of the Ir-192 sources manufactured by ISOTREND make them ideal for all NDT environments with varying materials and site conditions.

Our production facility in Prague (Czech Republic) and the technology itself meet all regulatory, safety and quality requirements in order to produce high-quality sources.

Our personnel (qualified in chemistry, radiation protection, mechanics and logistics) is extensively skilled with several years of experience and trained on regularly basis in order to supply you with the best product in a record short time.

ISOTREND is a proud member of the Gamma-Service Group

Ir-192 · Se-75 · Co-60
