

GlobeHeat Datasheet : Product Code GHT 7901 to 7906

Product Description: Stainless Steel Mesh

Material: Austenitic Stainless Steel

Wire Diameter:0.25mm

Stitch Pattern:X310 Standard

Applications

Used in the manufacture of various widths of insulation mats.

Specifications of available sizes

Product Code	Width	Length	Weight	Application
GHT 7901	100mm	127m	10kg	For the manufacture of insulation mats for FIP3 preheaters
GHT 7902	125mm	120m	10kg	For the manufacture of insulation mats for FIP4 preheaters
GHT 7903	330mm	64m	10kg	For the manufacture of 300mm wide insulation mats
GHT 7904	635mm	35m	10kg	For the manufacture of 600mm wide insulation mats
GHT 7905	635mm	87m	25kg	For the manufacture of 600mm wide insulation mats
GHT 7906	330mm	96m	15kg	For the manufacture of 300mm wide insulation mats

Principal Health Hazards

When handling the mesh there is a risk of cuts and scratches from sharp ends of wire, especially when removing the rolls from the cartons.

Precautionary & Protective Measures

During handling and use of the mesh, appropriate clothing and personal protective equipment, such as gloves and safety glasses, should be worn to prevent cuts and scratches by loose wires or sharp ends when handling, cutting or trimming the mesh.

First Aid

Cuts: Stem any bleeding and seek appropriate medical attentions

Loose wires entering the eyes: If loose wires/metallic particles enter the eyes whilst cutting or handling the mesh. seek immediate medical attention.
